Air Receivers

Air Receivers are manufactured in quality carbon steel for storing compressed air with capacities ranging from 200 litres to 30000 litres

Standards Precision design and manufacture Air Receivers in accordance with EEC/97/23 for pressure equipment or ASME Pressure Vessel code.

PC	V	1000L
Precision Compressed	Configuration	Capacity in Litre
	V-Vertical H-Horizontal	

Eg:PCV 1000L

Connection : Connection can be of screwed / flanged

Supports : Supports can be of L type Ring type or Tubular

Painting : All Air Receivers will be painted with RAL 5015 Blue colour as standard

Working Pressure : Air Receiver are manufactured to 10.8 bar working pressure as standard (for other pressure please consult factory)

Accessories

Pressure Gauge

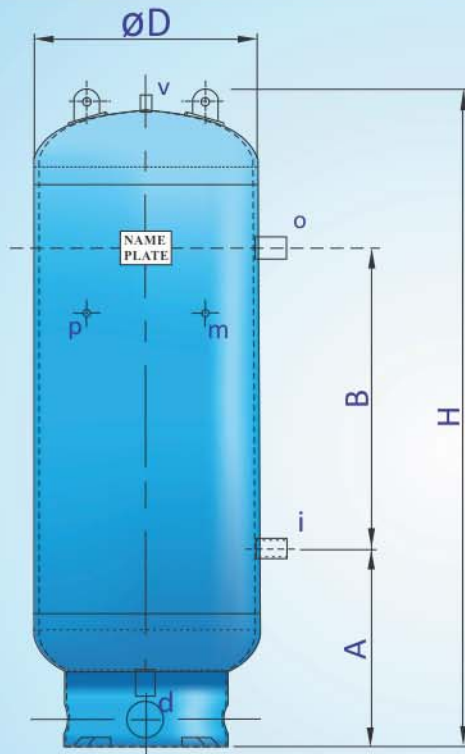

A pressure gauge is fitted in all air receivers as standard

Safety Valve All Air Receivers should be fitted with a safety valve to protect the cylinder against over pressure due to malfunction of controls or incorrect operation.
